Minutes of Chapter #20 July 17-18-19 2008 Rally

The rally was held in the Martinsburg Community Park in Martinsburg PA. President Rudy Mager was absent from the meeting due to health problems. Ann Hanks, Vice President conducted the meeting, with President Rudy Mager on the speaker phone. Monica Behum Secretary was also present. Ann Hanks opened the meeting at 10:00 A.M. with the Pledge of Allegiance, a moment of silence for our service men and women, keeping us free.

11 rigs in attendance, 22 members present.

Barry and Mary Moien of the nominating committee, stated that Ann Hanks would fill the office of Vice President and Phil Devonshire would take the job of treasurer, no nominations from the floor.

Philip was asked to take a seat with the board, as our present treasurer was not present. He proceeded to read the treasurer's report, e-mailed from Drew.

A motion was made by J.Thomspon to accept the report as read, seconded by J. McDonnell, all in favor. Secretary read the minutes fro the May rally. A motion was made by J. Thompson to accept the minutes as read, seconded by B. McDonnell, all in favor. Question from the floor as to where our money goes, which bank? It was explained that we will have an account with the M&T Bank and if anyone would like to check on how much money we have, go on line or ask Phil about it.

Vice President Ann said that it would make it easier if you could pay the rally fee in cash. Drew has sent the check book but Ann had not received it at the time she left to come to the rally. You can make out a check for your camping and dues. Due to Headquarters not having an Escapade on the East Coast, we will have a rally in September. It will be held in Manheim PA at Outdoor World, September 19-20 2008. If you will be attending please let Bill & Lois Boose know. New members and guests were welcomed this weekend. New members were Tom & Katie Patterson and guests were Jim & Dawn Rodgers.

Gillette Escapade 2008

Hi Folks --- Thank you for participating on The Row at the 30th Birthday Bash and Escapade in Gillette, WY. This was the largest Row ever before --representing 42 Chapters – 6 Certified Birds of a Feather – and 11 Co-Ops equaling 59 groups – HOORAH! This year The Row, the market, crafts and the floating making were all in the same area making for a very busy Row. We thank Jim & Jo Ellen Gas for representing Chapter #20.

The entertainment beginning with Craig Zablocki (motivational speaker), Jimmy Travis (comedian), Ham-arama, and the final dance party were terrific. And then it was the 4th of July with the Gillette parade – the Escapees float took 2nd place, the history of Escapees slide show along with birthday cake and ice cream, ending the day with the fabulous fireworks! Escapade gathered together many new classes along pre Boot Camp, pre and post HOPs and lots of SKP Hugs.

We hope you will plan to attend the Escapade May24-29, 2009 in Sedalia, Missouri. Look for more information in upcoming Escapees Magazines. Remember Sedalia, MO is just 500 miles from 25 different states. Make your plans to head to Escapade and enjoy the travels to and from. Hope to see you there!

SKP Hugs,

Susie & Denny Orr

Escapade 2008 was great. With 1119 rigs and well over 3,000 people everyone had a good time. We were very busy at the booth on the row talking to a lot of folks and signing up three new members, one for two years. Would have had more, but people were busy with seminars and other activities so forgot to come back. Vendor row was drab in my opinion. Several from last year refused to come this year due to issues with staff. They were big vendors. There will be big changes next year with new directors Harrel and Tommie Sue Hicks coming back on board. As soon as I transfer my pics from camera, I will send them. We are presently at I-80 Truck Stop in Wolcott, Iowa, The largest truck stop in the USA. They are having their annual Big Truck Jamboree. What a crowd, 100 rigs every 10 minutes coming in this place.

> Until next time, Happy Trails. Jim & Jo Ellen Gass.

Walt Francis – "Sonny" Francis Jr. passed away in March 12, 2008. He will be missed. His wife, Thelma, plans to downsize to a smaller rig and keep on camping. We hope to see Thelma at a rally soon. We will be waiting with plenty of SKP hugs for her!

Hi Gang:

Greetings from northwest Az. We have been here in Meadview since April of 07, except for two short trips to Vegas and Valle Verde. This is the longest we have been in one place in 9 years of full time. With the price of gas it does not look like we will be moving any time soon.

We love it up here, very small town, less than 2000 people. We have to go 52 miles, one way, to the nearest Wal-Mart. No traffic lights either. My sister is a nurse practitioner and is opening her own office. I have been helping in the remodeling, I'm the gofer. Joan has a job as a care giver for an 87 year old lady. She takes her shopping and to lunch, feeds her pets and gets paid for it! We have a 50 amp full hook up so don't need to move at all.

Hot here in summer 115 a couple of times, but with %20 percent humidity it's ok. Winter is mild low 50's most days. Down in the 20's at night a couple of times. The sun shines 350 days a year. Hope you all are well. Our email address is ha.be@juno.com, send us a note.

Hugs, Harry and Joan Bellerby

Hi! Ralph and I are members of the Mid-Atlantic chapter, I don't know if we ever met you. We have only been to a few campouts and can't remember everyone we met. Anyway, we are full-timers now and that is why we haven't been to any meetings in the last year. We are on our way to the Escapade. Really looking forward to it and we will try to catch up with the members of our chapter. If you think the members are interested in our travel, please post this website:

<u>www.fredericknewspost.com/sections/special_sections/the_joneses</u>. I am writing a blog each week about our travels. The Frederick News Post did an article on us last year about our plans to full-time and then we were asked to write about our travels. I also include several pictures, so there will definitely be some from the rally and hopefully the other members.

Take care, Gisela & Ralph Jones

Editor's note: Check out their blog, it is awesome!

Favorite Places

This is a photo and notes taken from the blog of Gisela and Ralph Jones:

On Monday we went to St. Louis, the Gateway to the West, to see the Gateway Arch. The Arch was built in 1965 as part of Jefferson National Expansion Memorial. Thomas Jefferson very much encouraged the expansion of the United States to the West. In the 1800s, St. Louis was the place where many settlers were outfitted before heading west. I read that Lewis and Clark where outfitted there in 1803 for their famous exploration of the Louisiana Purchase. Going up on the Arch was quite an experience. A small closed-in cubicle took us to the top – 630 feet high. The cubicle was sort of like a Ferris Wheel gondola, only closed in and going up on rails. It is definitely not a trip for someone who is claustrophobic. Even the area on the top was small and narrow, but the view over the city and the Mississippi was breathtaking. The architecture and engineering that went into building the Arch can boggle your mind – just amazing. With this trip to St. Louis I fulfilled a longtime dream of mine. The Gateway Arch has always fascinated me and has been one of the things in America I wanted to see.

Safety Issue

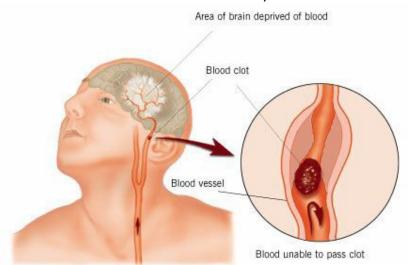

Met amphetamine cooks are buying propane tanks from the exchanges at Wal-Mart, Kroger, and emptying them of the propane gas. Then they fill the propane tanks with anhydrous ammonia, which they now have a recipe to cook Met amphetamine. After they are finished with the propane tanks, they return them to the store. The stores refill the tanks with propane gas, unknowing to them the improper substance that was inserted in the tanks and sell them to their consumers. Anhydrous ammonia is very corrosive and weakens the structure of the tank. It can be very dangerous when mixed with propane gas and hooked up to a grill, recreation vehicle, etc. You should inspect the propane tank for any blue or greenish residue around the valve areas. If there are evidences of these substances, do not purchase the propane tank and advise the vendor of your findings.

The information was researched, and you should check out the following website for more details. They also have pictures for you to view. Click on the link to the right that reads Safety Issues http://www.npga.org

Safety and Health issues were from Al Groft. Thanks, Al!

Health Issues

Blood Clots/Stroke - New indicator is found: The Tongue

STROKE: Remember The 1st Three Letters....

Please read:

STROKE IDENTIFICATION:

During a BBQ, a friend stumbled and took a little fall - she assured everyone that she was fine (they offered to call paramedics)she said she had just tripped over a brick because of her new

They got her cleaned up and got her a new plate of food. While she appeared

a bit shaken up, Ingrid went about enjoying herself the rest of the evening Ingrid's husband called later telling everyone that his wife had been taken to the hospital - (at 6:00 pm Ingrid passed away.) She had suffered a stroke at the BBQ. Had they known how to identify the signs of a stroke, perhaps

Ingrid would be with us today. Some don't die.... they end up in a helpless, hopeless condition instead.

It only takes a minute to read this...

A neurologist says that if he can get to a stroke victim within 3 hours he can totally reverse the effects of a stroke... <u>totally</u>. He said the trick was getting a stroke recognized, diagnosed, and then getting the patient medically cared for within 3 hours, which is tough.

RECOGNIZING A STROKE

Thank God for the sense to remember the '3' steps, STR. Read and Learn! Sometimes symptoms of a stroke are difficult to identify. Unfortunately, the lack of awareness spells disaster. The stroke victim may suffer severe brain damage when people nearby fail to recognize the symptoms of a stroke. Now doctors say a bystander can recognize a stroke by asking three simple questions:

S* Ask the individual to **SMILE.**

T* Ask the person to TALK and SPEAK A SIMPLE SENTENCE (Coherently) (i.e. It is sunny out today)

R* Ask him or her to RAISE BOTH ARMS.

If he or she has trouble with ANY ONE of these tasks, call 999/911 <u>immediately</u> and describe the symptoms to the dispatcher.

New Sign of a Stroke ----- Stick out Your Tongue!

NOTE: Another 'sign' of a stroke is this: Ask the person to 'stick' out his tongue.. If the tongue is 'crooked', if it goes to one side or the other, that is also an indication of a stroke.

Garfield on the oil crisis

A lot of folks can't understand how we

came to have an oil shortage here in our country. Well, there's a very simple answer. Nobody bothered to check the oil. We just didn't know we were getting low.

The reason for that is purely geographical. Our oil is located in Alaska, California Coastal Florida. Coastal Louisiana, Kansas, Oklahoma. Pennsylvania, and Texas. Our DIPSTICKS are located in Washington DCIII Any Questions???

NO? Didn't think So.
